

To whom it may concern,

Greetings! I'm happy to hear that you've decided to "phase out" the LD50 test. It was grossly inhumane. But that's not far enough. Personally, I believe that ALL animal testing is morally bankrupt. I hope you do all you can to eventually phase out all forms of vivisection in favor of in vitro studies, epidemiology and clinical studies. We can save lives without subjecting animals to what is essentially torture, both physically and emotionally. Go vegan!
